2015 Second Quarter Immunization Rate Assessment Report (April 1, 2015)

The Maine Immunization Program conducts an immunization assessment on the 1st of each quarter (January, April, July, October) which includes all 2 year olds in the State of Maine immunization registry, ImmPact, associated to a practice which enters client specific data. These assessment follow the standard Centers for Disease Control and Prevention childhood assessment criteria of 24-35 months of age immunizaed as of 24 months for the 4 DTap (Diphtheria, Tetanus, Polio): 3 IPV (Polio): 1 MMR (Measles, Mumps, Rubella): 3 Hib (Haemophilus influenza type B): 3 HepB (Hepatitis B): 1 Var (Varicella): 4 PCV (Pneumococcal Conjugate) schedule.

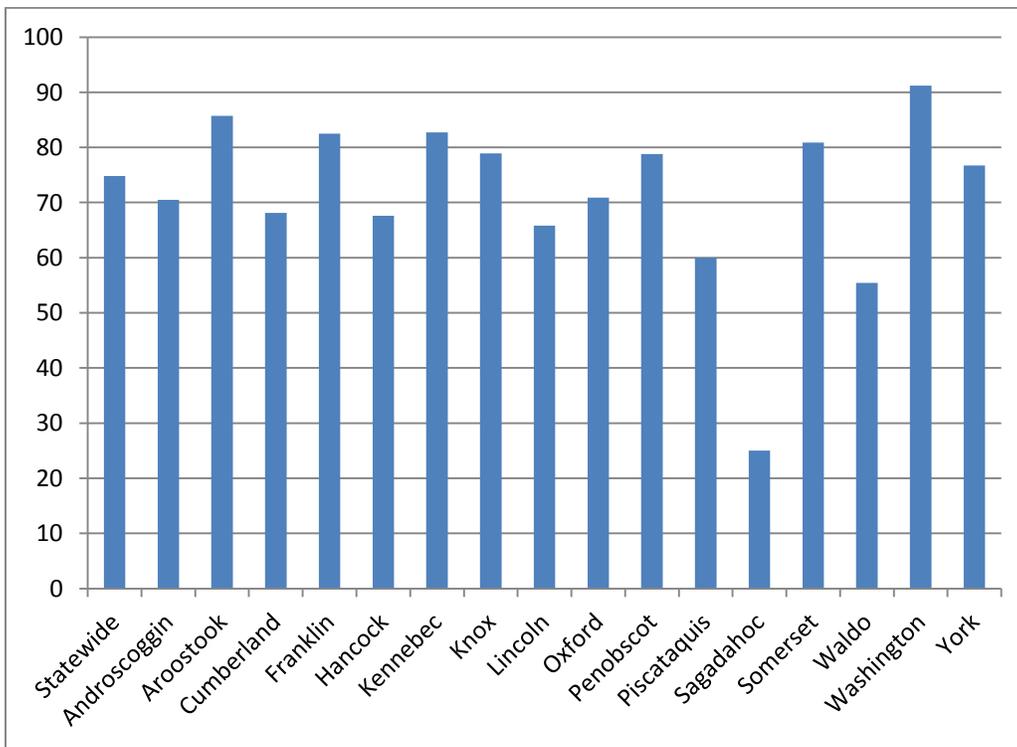

Table with 2 columns: County and Rate. It lists immunization rates for 17 counties and the statewide average. Washington has the highest rate at 91.2%, while Sagadahoc has the lowest at 25.0%.

If you have any questions, please contact the Maine Immunization Program at 207-287-3746 or email ImmunizeMe.DHHS@Maine.gov.

Thank you for your dedication to keep the citizens of Maine free from vaccine-preventable diseases.
